Post-Doctor / Research Assistant Professor Positions

(Effective on 08/15/2006)

The Department of Electrical and Computer Engineering at the University of Arizona invites applications for post-doc or research assistant professor appointments. Applicants must have earned a doctorate in Electrical Engineering, Physics, Material Science or Engineering, or a related discipline. We are particularly interested in qualified applicants in the following areas: micro- and nano-electronics fabrication and characterization, especially carbon nanotube related devices. Experiences with the following areas will be a plus: electromagnetic and circuit simulation tools, and microwave engineering, antennas and arrays, millimeter wave / THz components and technologies, and solid-state devices and circuits.

We offer competitive salary and excellent research environment. The successful candidates will have opportunities to work with large collaborative research groups and industrial partners. We also provide considerate assistance on visa applications for qualified international applicants.

Applications including full curriculum vitae, two-page research plan, three representative publications and a list of three reference names should be submitted prior to 10/01/2006 and directed to:
